foreign language skills	caring	measuring	selling
using technology	analysing	teaching	leading
	time management	writing	learning

How can one enter this profession (education, learning opportunities)?

Draw a pathway starting from completing basic school:

## LEARNING OPPORTUNITIES

- vocational education or vocational secondary education (applied secondary education)
- higher education (Bachelor's, Master's and/or Doctoral degree)
- further training (courses, micro-credentials)
- learning at the workplace (mentor, learning through work experience)

The most exciting, coolest, or most surprising thing I learned:
